Florida's 13th Congressional District: crosstabs

Likely voters (AFWH house estimate). n = 875; the poll's margin of error ±4.0 points. Interviews completed October 20, 2026, 12:14 PM ET to October 23, 2026, 6:16 PM ET. Generated from the published release.

Release b0dcc277-7d9a-4b84-98c2-b9f96b08bf7e, version 5.

"*" less than 0.5%. "-" zero. "n<50" fewer than 50 respondents: not shown. "†" 50 to 99 respondents: interpret with caution. Totals may not add to 100% due to rounding.

Q1 How likely are you to vote in the November 3, 2026 general election in [their area]?

Words in brackets were filled in for each person. What each person read was not recorded with their answers.

Base: Likely voters (AFWH house estimate), n = 875. Includes those who already voted. The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q2/Q3 Senate ballot choice

Q2 Who did you vote for in this year's general election for U.S. Senate? (Asked only of respondents who answered Q1 “Already voted”)

Candidate order: as on the Florida ballot (Fla. Stat. 101.151(3)(a)-(b))

Q3 If the election for U.S. Senate were held today, who would you vote for? (Asked only of respondents who were asked Q1 and did not answer “Already voted”)

Candidate order: as on the Florida ballot (Fla. Stat. 101.151(3)(a)-(b))

Base: Likely voters (AFWH house estimate), n = 875. Includes those who already voted. Leaners are not included: the undecided were asked a follow-up, shown in its own table (Q4). The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q5 Are you definitely or probably going to vote for that candidate? (Asked only of respondents who were asked Q1 and did not answer “Already voted” and answered Q3 “Ashley Moody, Republican” or “Angie Nixon, Democrat” or “Neil J. Gillespie, No Party Affiliation”)

Base: Likely voters (AFWH house estimate), n = 456. The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q6/Q7 Governor ballot choice

Q6 Who did you vote for in this year's general election for Governor? (Asked only of respondents who answered Q1 “Already voted”)

Candidate order: as on the Florida ballot (Fla. Stat. 101.151(3)(a)-(b))

Q7 If the election for Governor were held today, who would you vote for? (Asked only of respondents who were asked Q1 and did not answer “Already voted”)

Candidate order: as on the Florida ballot (Fla. Stat. 101.151(3)(a)-(b))

Base: Likely voters (AFWH house estimate), n = 875. Includes those who already voted. Leaners are not included: the undecided were asked a follow-up, shown in its own table (Q8). The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q9 Are you definitely or probably going to vote for that candidate? (Asked only of respondents who were asked Q1 and did not answer “Already voted” and answered Q7 “Byron Donalds, Republican” or “David Jolly, Democrat” or “Scott Eckhard Jewett, Libertarian” or “Charles Burkett, No Party Affiliation” or “Frank J. Russo, No Party Affiliation” or “Moliere "Moe" Dimanche, No Party Affiliation” or “Dean Ocean Abrams, No Party Affiliation” or “Jeffrey Peter "Dr. Jeff" Datto, No Party Affiliation”)

Base: Likely voters (AFWH house estimate), n = 463. The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the

Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q10/Q11 House ballot choice

Q10 Who did you vote for in this year's general election for U.S. House of Representatives? (Asked only of respondents who answered Q1 “Already voted”)

Candidate order: as on the Florida ballot (Fla. Stat. 101.151(3)(a)-(b))

Q11 If the election for U.S. House of Representatives were held today, who would you vote for? (Asked only of respondents who were asked Q1 and did not answer “Already voted”)

Candidate order: as on the Florida ballot (Fla. Stat. 101.151(3)(a)-(b))

Base: Likely voters (AFWH house estimate), n = 875. Includes those who already voted. Leaners are not included: the undecided were asked a follow-up, shown in its own table (Q12). The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q12 If you had to decide today, which candidate would you lean more toward? (Asked only of respondents who were asked Q1 and did not answer "Already voted" and answered Q11 "Undecided")

Candidate order: as on the Florida ballot (Fla. Stat. 101.151(3)(a)-(b))

Base: Likely voters (AFWH house estimate), n<50. The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q15 When it comes to the November election, would you say you are very enthusiastic about voting, somewhat enthusiastic, not very enthusiastic, or not at all enthusiastic? (Asked only of respondents who were asked Q1 and did not answer “Already voted”)

Base: Likely voters (AFWH house estimate), n = 497. The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q16 On a scale from 0 to 9, where 0 means you definitely will not vote and 9 means you definitely will vote, how likely are you to vote in this election? (Asked only of respondents who were asked Q1 and did not answer “Already voted”)

Base: Likely voters (AFWH house estimate), n = 497. The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q18 Do you approve or disapprove of the way Chuck Schumer is handling his job as Senate Democratic Leader?

Base: Likely voters (AFWH house estimate), n = 875. Includes those who already voted. The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q21 Do you approve or disapprove of the way the Republicans in Congress are handling their job?

Base: Likely voters (AFWH house estimate), n = 875. Includes those who already voted. The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q25 Do you have a favorable or unfavorable opinion of health insurance companies?

Base: Likely voters (AFWH house estimate), n = 875. Includes those who already voted. The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q28 Do you have a favorable or unfavorable opinion of large companies that own rental homes and apartments?

Base: Likely voters (AFWH house estimate), n = 875. Includes those who already voted. The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q36 Do you own or rent your home?

Base: Likely voters (AFWH house estimate), n = 875. Includes those who already voted. The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the

Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q40 Would you call yourself a strong Republican or a not very strong Republican? (Asked only of respondents who answered Q38 “Republican”)

Base: Likely voters (AFWH house estimate), n = 294. Includes those who already voted. The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the

Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Q44 Which of these best describes your household's total income in 2025, before taxes?

Base: Likely voters (AFWH house estimate), n = 875. Includes those who already voted. The overall sample does not ensure precise subgroup results. Use each column's own sample size and margin of error; the poll-wide margin does not apply to subgroups. n<50 means insufficient sample for an estimate; † marks 50 to 99 respondents, interpret with caution.

Race and ethnicity from voter-file records or modeling, not a survey answer. Hispanic of any race. Other includes Native American, multiracial and other races; Asian/Pacific Islander is separate. A group with insufficient sample is shown as n<50, not combined with another race. Independents are respondents who did not call themselves a Democrat or a Republican on the party question (they said independent, another party or don't know), whatever their voter-file registration. True independents are independents who answer Neither to the party-lean question. The party recorded on each respondent's voter-file record. Asked only of those who had not yet voted. The word respondents chose to describe their political views. Respondents by their answer on the Senate ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the Governor ballot: whom they voted for, or would vote for if they had not yet voted. Respondents by their answer on the House ballot: whom they voted for, or would vote for if they had not yet voted.

Method

Sponsor and conductor

Sponsored by A Fight Worth Having (super PAC, FEC C00933085); conducted by RedBox Research, AFWH's polling unit.

Population

Likely voters (AFWH house estimate) in the declared poll frame (FL-13); weighted to the November 3, 2026 general electorate as the state's 2026 turnout verdict, set in advance, defines it: every target dimension from the turnout model's predicted 2026 electorate, trained only on elections since 2016. Race is weighted to the 2022 general electorate's composition by the race voters recorded on the state's voter file, with a verified surname-and-geography estimate for voters who recorded none. The AFWH house estimate: the average of the weighting recipes held to the 2024 vote that passed our checks for this poll (recalled-vote recipe, recalled-vote recipe plus turnout groups, recalled vote among verified 2024 voters and recalled vote among verified 2024 voters plus turnout groups), each on our likely-voter model's turnout step, raked to the poll's electorate targets and to the certified 2024 presidential result through recalled 2024 vote and the Census college share of the geography's registered citizens.

Sample frame and coverage

A probability sample: every voter was drawn at random, with a recorded seed, from the voter-file universe named in the disclosure. No response was generated by AI (no synthetic respondents were used). Voters were drawn from the AFWH voter file, built from the Florida official state voter registration file dated June 30, 2026 (received August 13, 2026), for 395,648 drawn voters. Telephone numbers: of the 72,182 voters sent an invitation or called, 70,413 at a number on the official voter file; 1,039 at numbers L2 appended to the voter record (orders 132640 and 132877); 730 at a number both the official voter file and L2 held. 72,182 of the 395,648 drawn voters (18.2%) had a textable number and were sent an invitation; the other 323,466 could not be reached by text and are counted as not attempted (AAPOR 3.23).

Mode and languages

Text message invitation to a self-administered web survey. Languages: English.

Field dates

First invitation October 20, 2026, 12:03 PM ET; first completed interview October 20, 2026, 12:14 PM ET; last completed interview October 23, 2026, 6:16 PM ET.

Completed interviews

Completed interviews by frame: FL-13 2026 general 875. By mode: web 875.

Weighting

a weighted average of several raking recipes' weights to party registration (Conservative 0.1%, Democratic 28.3%, Green 0.1%, Libertarian 0.3%, no party 20.8%, other parties 2.4%, Republican 48.0%); gender (women 53.9%, men 46.0%, gender not recorded 0.2%); age group (18-29 6.0%, 30-44 14.5%, 45-54 12.8%, 55-64

20.5%, 65+ 46.2%); 2024 presidential vote (recalled) (Harris 39.7%, did not vote or voted for someone else 8.2%, Trump 52.1%); education (four-year college degree) (college degree 37.7%, no college degree 60.5%, not recorded 1.8%); race and ethnicity (voter-file model) (Asian or Pacific Islander 2.2%, Black 3.4%, Hispanic 4.6%, other races 2.1%, White 87.8%), from the 2026 electorate targets of the state's 2026 turnout verdict, set in advance; base weights are the inverse of each sampled voter's recorded selection probability within the stratified draw.

How the weights are combined

Each respondent's weight combines two families of weighting recipes anchored to the 2024 presidential vote: one to the certified result, one to the 2024 vote of respondents the voter file shows voted, each named candidate held to its certified share. Within a family, the recipes that pass the partisan checks are averaged, each recipe's weights scaled to a mean of 1 first. Each family counts in proportion to how often its average fits voter-file facts no recipe weights to best (2020 and 2022 turnout, registration year and county, and where the state's file of returned ballots is held, the early vote by party) over 500 resamples of respondents: certified 2024 recall (2 recipes), 0.4%; corrected 2024 recall of file-validated 2024 voters (2 recipes), 99.6%. Each recipe rakes the likely voters to its targets, its weights trimmed at the 1st and 99th percentiles; recipes off the electorate's party mix by more than 3 points or the certified 2024 result by more than 5 were left out. Recipes without a 2024 vote anchor were computed as sensitivities only. A question asked of a random part of the sample is read on the same weights of the respondents who answered it. Weight trimming: Each recipe in the estimate raked the design weights to its targets with no bound on the adjustment, then trimmed its final weights at their 1st and 99th percentiles and raked them again; averaging the recipes trimmed no weight.

Likely voters

No question screened respondents out of the interview. Each respondent's voter-file turnout score was updated by their answer to the vote-intention question (Q16), with an odds ratio of 2.42 between the lowest and highest answers. Respondents who said they had already voted (Q1) counted as certain to vote; a missing answer kept the file score; anyone else whose file score was zero got no weight. Each respondent's weight was multiplied by the updated score before raking to the targets. Each person counts by their chance of voting: the turnout score our voter-file model gives them, adjusted by how likely they said they are to vote.

Turnout model

Not recorded in the release disclosure.

Margin of error

n = 875 completed interviews; 72,182 sampled voters were sent a text invitation; margin of error ±4.0 percentage points at 95% confidence including a design effect of 1.43. The margin of error on the gap between two candidates is roughly twice the poll's margin of error; each race's own figure is given in the fine print with its result. Each column's margin of error in the tables is $1.96 \times \sqrt{(0.25 \div \text{effective n})} \times 100$: the same formula on that column's own respondents and weights, its design effect included.

Composition of the sample

Unweighted and weighted shares of the respondents, with their number, in the composition table.

Response rate

Standard: AAPOR Standard Definitions, 10th edition (2023), list samples: section 1.3 (phone surveys of named persons) and section 1.6 (SMS surveys of named persons). Final dispositions of the 395,648 drawn cases: 1.1 Complete interview: 875; 2.1133 Replied STOP to the invitation: 4,777; 2.12 Break-off: started the survey (web link or phone) and stopped before completing it: 521; 3.20 Invitation delivered, no response: 64,270; 3.219 Invitation not delivered: 1,438; 3.23 Not attempted: no invitation sent and no call dialed: 323,466; 3.9 Invitation sent, no delivery status returned: 301; Outcome rates: RR1 0.2%; RR3 0.2%; COOP1 14.2%; REF1 1.3%; CON1 1.6%. 72,182 text invitations sent, 0 calls dialed. Text message to the web survey: 72,182 cases attempted. RR1 1.2%; RR3 1.2%; COOP1 14.2%; REF1 7.3%; CON1 8.6%. Each mode counts only the people it tried to reach and only the interviews completed in that mode: a voter texted who then finished by phone is a text non-complete and a phone complete. Each mode's RR3 uses the release's e. Each voter's final disposition is the most informative outcome across every text and call (AAPOR Standard Definitions, 10th edition, pp. 9 and 13): a complete in either mode, then a screen-out, then a refusal or break-off, then the most informative unreached outcome. e = 1.0000: proportional allocation (the default of AAPOR Survey Outcome Rate Calculator 5.1 (2023), List Samples sheet) over the 6,173 cases whose eligibility was settled by contact (6,173 eligible, 0 screened out). Duplicate listings are left out because the frame check removed them from every drawn case. The questionnaire has no eligibility screener, and the Standard Definitions treat an unreached named-list case as eligible when none is required.

Quality checks

Each invited voter received a unique survey link; a link yields at most one interview. Quality flags recorded: 2 interviews with a recorded duration below 35% of the poll's median interview time. Flags are measured, not used to drop cases: all 875 interviews completed by the status date are in the weighted estimates.

AI use

(a) Task performed by AI: none in data collection; no AI interviewer or chatbot was used (Text message invitation to a self-administered web survey). AI in processing: No language model coded, weighted or wrote any published result; every published number and sentence is produced by deterministic code from the recorded responses. (b) Human oversight or validation: not applicable; no AI output enters the data or the published results.

Limitations

The margin of error (4.0 points at 95% confidence, including the design effect) describes sampling error for a result near 50% among all respondents. Results for subgroups carry larger margins, and question wording, coverage and nonresponse can also affect results. The margin of error on the gap between two candidates is roughly twice the poll's margin of error; each race's own figure is given in the fine print with its result. The sponsor is a political committee (a super PAC). Readers should weigh results with that sponsorship in mind. Respondents could be reached only through a telephone number matched to their voter record; voters without a usable number were outside the sample frame. Respondents answered online; people unable or unwilling to complete a web survey are represented only through weighting. 15 respondents had no recorded age group and were not adjusted on that variable. 32 respondents had no recorded race and ethnicity (voter-file model) and were not adjusted on that variable. 16 estimates rest on fewer than 50 respondents and are not shown.

Questionnaire

Each table prints its question's exact wording; the full questionnaire, in order, is part of the release disclosure.

Standard

AAPOR Code of Professional Ethics and Practices, Section III.A. Generated by code (pollster.public-crosstabs.v2) from the stored final weighting run, its crosstabs and its release; nothing in it was typed by hand.

Composition of the sample

Rows in grey are respondents with no reading on the banner, or a non-substantive one: they are in the Total and in no column of that banner.
